Using Understanding by Design in the Culturally and Linguistically Diverse Classroom Amy J. Heineke, Jay McTighe, 2018-07-11 How can today's teachers, whose classrooms are more culturally and linguistically diverse than ever before, ensure that their students achieve at high levels? How can they design units and lessons that support English learners in language development and content learning—simultaneously? Authors Amy Heineke and Jay McTighe provide the answers by adding a lens on language to the widely used Understanding by Design® framework (UbD® framework) for curriculum design, which emphasizes teaching for understanding, not rote memorization. Readers will learn the components of the UbD framework; the fundamentals of language and language development; how to use diversity as a valuable resource for instruction by gathering information about students' background knowledge from home, community, and school; how to design units and lessons that integrate language development with content learning in the form of essential knowledge and skills; and how to assess in ways that enable language learners to reveal their academic knowledge. Student profiles, real-life classroom scenarios, and sample units and lessons provide compelling examples of how teachers in all grade levels and content areas use the UbD framework in their culturally and linguistically diverse classrooms. Combining these practical examples with findings from an extensive research base, the authors deliver a useful and authoritative guide for reaching the overarching goal: ensuring that all students have equitable access to high-quality curriculum and instruction.

Let the Children March Monica Clark-Robinson, 2018 Coretta Scott King Honor Award for Illustration 2019 I couldn't play on the same playground as the white kids. I couldn't go to their schools. I couldn't drink from their water fountains. There were so many things I couldn't do. In 1963 Birmingham, Alabama, thousands of African American children volunteered to march for their civil rights after hearing Dr. Martin Luther King Jr. speak. They protested the laws that kept black people separate from white people. Facing fear, hate, and danger, these children used their voices to change the world. Frank Morrison's emotive oil-on-canvas paintings bring this historical event to life, while Monica Clark-Robinson's moving and poetic words document this remarkable time.

Slides for Students Gary D. Fisk, 2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. Slides for Students does just that. Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, Slides for Students discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.

The Big Picture Dennis Littky, Samantha Grabelle, 2012-02-17 What is the purpose of education? What kind of people do we want our children to grow up to be? How can we design schools so that students will acquire the skills they'll need to live fulfilled and productive lives? These are just a few of the questions that renowned educator Dennis Littky explores in *The Big Picture: Education Is Everyone's Business*. The schools Littky has created and led over the past 35 years are models for reformers everywhere: small, public schools where the curriculum is rich and meaningful, expectations are high, student progress is measured against real-world standards, and families and communities are actively engaged in the educational process. This book is for both big E and small e educators: * For principals and district administrators who want to change the way schools are run. * For teachers who want students to learn passionately. * For college admissions officers who want diverse applicants with real-world learning experiences. * For business leaders who want a motivated and talented workforce. * For parents who want their children to be prepared for college and for life. * For students who want to take control over their learning . . . and want a school that is interesting, safe, respectful, and fun. * For anyone who cares about kids. Here, you'll find a moving account of just what is possible in education, with many of the examples drawn from the Metropolitan Regional Career and Technical Center (The Met) in Providence, Rhode Island--a diverse public high school with the highest rates of attendance and college acceptance in the state. The Met exemplifies personalized learning, one student at a time. *The Big Picture* is a book to reenergize educators, inspire teachers in training, and start a new conversation about

kids and schools, what we want for both, and how to make it happen.
