Profit Theory and Capitalism Mark Obrinsky,2015-10-12 The pursuit of profit by business motivates the capitalist economic system. Understanding profits, therefore, especially the source of profits, is essential to an understanding of capitalism. Mark Obrinsky claims that there has never been an adequate profit theory in mainstream economics. To find the source of profits, he argues, one needs to look beyond ownership of the productive factors of land, labor, and capital. Profit Theory and Capitalism makes a sharply reasoned and accessible contribution to critical theory, the history of economic

thought, and post-Keynesian theory. Its insights will be of value to all students and theorists working in the area of income distribution.

Design Integration Using Autodesk Revit 2011 (Architecture, Structure and MEP) Daniel John Stine, 2010-07-02 Design Integration Using Autodesk Revit 2011 is designed to provide the reader with a well-rounded knowledge of Autodesk Revit tools and techniques. All three components of the Revit platform are introduced in this textbook. This approach gives the reader a broad overview of the Building Information Modeling (BIM) process. The topics cover the design integration of most of the building disciplines: Architectural, Interior Design, Structural, Mechanical, Plumbing and Electrical. Civil is not covered, but adding topography to your model is. Each book comes with a DVD containing numerous video presentations of the written material. Throughout the book the student develops a two story law office. The drawings start with the floor plans and develop all the way to photo-realistic renderings similar to the one on the cover of this book. Along the way the building's structure, ductwork, plumbing and electrical (power and lighting) are modeled. By the end the reader will have thorough knowledge of many of the Revit basics needed to be productive in a classroom or office environment. Even if you will only be working with one component of Revit in your chosen profession, this book will give you important knowledge on how the other disciplines will be doing their work and valuable insight into the overall process. As an instructor, the author understands that many students in a classroom setting have varying degrees of computer experience. To help level the playing field the first chapter is devoted to an introduction to computers. Much of the basics are covered, from computer hardware and software to file management procedures: including step-by-step instructions on using a flash drive. Chapters 2 through 5 cover many of the Revit basics needed to successfully and efficiently work in the software. Once the fundamentals are covered, the remaining chapters walk the reader through a building project which is started from scratch so nothing is taken for granted by the reader or the author.

Proceedings of the 3rd International Conference on Quantitative, Social, Biomedical and Economic Issues 2019 Christos Frangos ,2019-05-24 This year's Conference is characterized by the research contributions of Scientists from Cyprus, England, Saudi Arabia and Greece. This year's Conference is organized by the Greek Foundation for Research in the Quantitative, Social and Economic Subjects, which is a non-profit Company with Articles of Association registered in the Chamber of Non-for-profit organizations. This Conference is a continuation, in a broader sense, of the four International Conferences which were organized by myself during the years 2003, 2009, 2013, and 2015, under the auspices of the Technological Educational Institute of Athens, as well as the 1st and 2nd International Conference on Quantitative, Social,

Biomedical and Economic Issues, during the years 2017, 2018, Athens. The International Conferences of the years 2017, 2018, were organized under the Auspices of the Greek Foundation for Research in the Quantitative, Social and Economic Subjects which is based in Athens, Greece and has links with an International group of Academics. This Conference is focusing on the impact of Education on the innovation process, the productivity and the well-balanced development of a country. The findings of (Varsakelis, Volume 35, Issue 7, September 2006, Pages 1083-1090, ELSEVIER) support the hypothesis that the higher the investment of a society in the quality of education, the higher the output of innovation activity. Furthermore, the development level of the governmental institutions is positively correlated with innovation activity. The aim of this Conference is to become a forum for the analysis of subjects related to the Quantitative, Social, Biomedical and Economic Sciences, the present state in Greece for the sectors of Education, Health, Innovative Business and the lessons learnt from them, in the context of the serious economic crisis in Europe and, particularly, in Greece. This Conference, also, is the opportunity for many highly respected scientists to present and exchange ideas in their respective research areas with the aim of initiating new joint projects. The new developments in the sectors of contemporary Science and Economy are important and the need for a clear and responsible information is very high regarding, also, the possibility of fake news through the Internet.
