How to Guide the Apprentice JD Julian, 2012-04-30 This guide is a basic structure of the apprenticeship. It is a guide for the Master to keep a structure of instruction and a consistent curriculum. It is a guide for the apprentice to develop as a tattoo artist and gain credibility. I wrote this guide for the sole purpose of what I expected from my apprenticeship, and how I could make sure my apprentice are completely competent of all aspects of a tattoo parlor. I feel this guide has a sound structure for all Masters to follow. This industry is booming and as Masters, we need to set higher standards of qualifications as a must. We need to demand more before they walk through the door. If a person seeks employment and has little knowledge of the trade or a small tattoo portfolio, guide the person in the direction of an apprenticeship. I can be confident with this curriculum each and every time the apprentice should have strict criteria to follow. I was an apprentice under two different Masters. Each Master taught different attributes of our field, first two years were shop structure and basic tattooing procedures. If it wasn't for this opportunity, the other door would have never presented itself. For this I am grateful. Now my second two year apprenticeship came to me just the same as the first, as if by fate. I was at a real low point in my career and just at that point of uncertainty I was approached by a big red headed dude at the local diner. He acquired about a piece on my neck and gave his compliments to the artist. He left me his card and urged me to call him. I had nothing to lose, and two days later I made that call and made an appointment to come see him. I was not there in his shop all but twenty minutes when he just burst out with I might be looking for an apprentice! and getting approval of acceptance from his wife, I was given another opportunity. This curriculum sets a clear standard of what each apprentice should be taught. This is an instructional guide for keeping the apprentice on track. This is a review book for those lead artist interested in taking on an apprentice. I set the professional standard of curriculum for my shop. What do you use for yours? There is so much history about art, not including the amazing tattoo artists that bring the art to life. Let us set our entry level standard for apprenticeship higher and keep this curriculum mandatory, as our own professional standard of all tattoo artist. Some Masters focus on shop function, others focus on procedures some Masters have sacred trade secrets, no matter the Masters instructional guidance now we all have a professional standard of curriculum. My hope is that all Masters share the same knowledge with each apprentice and pass down too generations to come. I wrote this guide to help me with the knowledge of what I needed to know to guide my apprentice, if this helps you be a better Master and gives your apprentice a better

understanding of what is expected. It can turn a long hard road into a nice cool breeze for every apprentice.

Body art Owen Jones,2022-10-04 It could easily be argued that body art is more popular now than at any time in history. In days long gone by, sailors were the most heavily tattooed sector of society, but for decades now, that sector is the youth, which is a larger group than those who put to sea. Not only has actual tattooing found a wider demographic, but technology has expanded the methods that can be employed to enhance our bodies. Nowadays, for example, you can get a fake tattoo that will last a couple of days for a special event. In a similar vein, women can be body-painted and the casual observer would be forgiven for not seeing a naked lady. I hope that you will find the information helpful, useful and profitable. It could easily be argued that body art is more popular than at any time in history. In days long gone by, sailors were the most heavily tattooed sector of society, but for decades now, that sector is the youth, which is a larger group than those who put to sea. Not only has actual tattooing found a wider demographic, but technology has expanded the methods that can be employed to enhance our bodies. Nowadays, for example, you can get a fake tattoo that will last a couple of days for a special event. In a similar vein, women can be body-painted and the casual observer would be forgiven for not seeing a naked lady. This doesn't work so well for men, for obvious reasons! You can also get fake tans, hair dyes, and nail varnishes that can easily be applied at home. There are also teeth whitening, cheap wigs, and coloured contact lenses available. Not to mention cheap sunglasses and fake glasses of numerous kinds. The ultimate form of body art is plastic surgery. Many ordinary people aspire to plastic cut, tucks and nips these days - it is not only the privilege of the rich and famous. In fact, some countries, like Thailand, offer holidays that include plastic surgery (and other forms), so that your friends will hardly recognise when you return from a month's holiday! In fact, with all the options for body art available on a typical Western high street, no-one need look the same two days running! The information in this ebook on various aspects of body art and related subjects, such as piercing, body painting and tattoos, is organized into 18 chapters of about 500-600 words each. I hope that it will interest those who like to write a diary and blog, or would like to, plus webmasters who need content for their online publications. So, as an added bonus, I am granting you permission to use the content on your own website or in your own blogs and newsletter, although it is better if you rewrite them in your own words first. Drawings for Tattoos Don Ed Hardy,2016-06 This book presents a lavish array of Hardy's drawings for custom tattoo commissions-ideas that were never tattooed, works from early childhood, and works from his art school days. All are placed in the context of an essay about how the impulse to draw is at the core of tattooing as a medium. Many works created for custom commissions include breakthrough pieces from the late 1960s and early 1970s. These were responsible for tattooing's present-day global explosion. Examples of designs' evolution through various stages provide a never-before-seen document of Hardy's process. A majority of the works are reproduced actual size.

Tattoo Dale Rio,Eva Bianchini,2005-01 Tattooing is a reflection of the basic human desire to decorate the body, and tattoos have held many different meanings throughout history. The practice has existed since ancient Egypt, and in our contemporary society has become a popular way for people of all ages to express themselves. Tattoo is a fascinating journey through the colorful world of this corporeal art form, via hundreds of fascinating photographs documenting the highly complex ritual tattoos of various subcultures, as well as the fantastic designs of modern tattoo artists.

Tattooed Skin and Health J. Serup,N. Kluger,W. Bäumlér,2015-03-26 With about 10-20% of the adult population in Europe being tattooed, there is a strong demand for publications discussing the various issues related to tattooed skin and health. Until now, only a few scientific studies on tattooing have been published. This book discusses different aspects of the various medical risks associated with tattoos, such as allergic reactions from red tattoos, papulo-nodular reactions from black tattoos as well as technical and psycho-social complications, in addition to bacterial and viral infections. Further sections are dedicated to the composition of tattoo inks, and a case is made for the urgent introduction of national and international regulations. Distinguished authors, all specialists in their particular fields, have contributed to this publication which provides a comprehensive view of the health implications associated with tattooing. The book covers a broad range of topics that will be of interest to clinicians and nursing staff, toxicologists and regulators as well as laser surgeons who often face the challenge of having to remove tattoos, professional tattooists and producers of tattoo ink.

Strengthening Forensic Science in the United States National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys,

and forensic science educators.

The Last Tattooed Women of Kalinga Jake Verzosa, François Cheval, Natividad Sugguiyao, 2018-01-04 The Last Tattooed Women of Kalinga presents a series of portraits by Jake Verzosa who laments and celebrates a dying tradition of tattooing in villages throughout the Cordillera mountains in the northern Philippines. For nearly a thousand years the Kalinga women have proudly worn these lace-like patterns or batok on their skin as symbols of beauty, wealth, stature and fortitude. Applied as part of a painful ritual, the vivid tattoos--abstractions of motifs such as ferns, rice bundles, centipedes and flowing rivers--reflect a rite of passage and a powerful bond with nature. Yet today this intricate form of self-adornment has largely been abandoned due to changing aesthetic perceptions. Between 2009 and 2013, Verzosa traveled extensively to document the last generation of women with the batok. The resulting pictures reveal the artistic designs of the tattoos, as well as their symbolic functions as signs of social belonging and testimonies to personal struggle and triumph in which the skin becomes a story. Accompanying Verzosa's portraits is a detailed illustrated glossary of the tattoo types and their meanings.
