Building PowerPoint Templates Step by Step with the Experts Echo Swinford,Julie Terberg,2012-09-28 Building PowerPointTemplates Supercharge your PowerPoint® presentations with custom templates and themes! Want to create presentations that are more consistent and cost-effective? Presentations that fully reflect your branding? Then don't settle for Microsoft's "out-of-the-box" templates and themes: create your own! In this easy, hands-on guide, two PowerPoint MVPs teach you every skill and technique you'll need to build the perfect template—from planning and design, through theme building, custom layouts, colors, and deployment. Echo Swinford and Julie Terberg have distilled their immense PowerPoint knowledge into simple, step-by-step techniques you can use right now, whether you're using PowerPoint 2010 or 2007 for Windows, or PowerPoint 2011 for Mac. Well-built templates are the backbone of great presentations—whether building them for your own use or designing for thousands of users, this book will guide you through the process of creating the most effective templates. Important Note: Upgrading from older versions of PowerPoint, such as PowerPoint 2003? Your old templates may no longer work. This book will help you make the transition painlessly! • Plan new templates and themes to

maximize their business value for years to come • Understand the differences between templates and themes, and how they work together • Make better choices about color, fonts, and slide layouts • Create efficient templates for individual users, teams, and large organizations • Incorporate Notes and Handout Masters into your presentation templates • Provide example slides and default settings that lead to better presentations • Use Microsoft's little-known Theme Builder to create effects and background styles • Work around hidden quirks in PowerPoint's advanced template and theme features

Echo Swinford, a Microsoft PowerPoint MVP since 2000, has been a featured speaker at the Presentation Summit (formerly PowerPoint Live) since its inception. She is the expert voice and instructor behind PowerPoint 2010 LiveLessons (Video Training), the author of *Fixing PowerPoint Annoyances* and co-author of *The PowerPoint 2007 Complete Makeover Kit*. Julie Terberg is a Microsoft PowerPoint MVP and featured speaker at the Presentation Summit. She is the owner of Terberg Design and has been designing presentations since the mid-1980s. She is co-author of *Perfect Medical Presentations*. As contributing author for *Presentations Magazine*, she won awards for her Creative Techniques columns.

Digital Scrapbooking Maria Given Nerius, 2004 It's the next phase in the scrapbooking craze! And this creative resource is the first of its kind—the first to focus on the use of computer hardware and software to unlock an exciting range of creative possibilities. Crafters will explore the many ways digital elements can add pizzazz to their scrapbooks: they'll learn to manipulate pictures with photo/image editing software, use scanners to create themed background papers, and draw on clip art for decorative accents. Going even further into the brave new world, there's information on creating all-digital pages, putting together a slideshow on computer, and pooling various techniques to stage a "digital family reunion."

Joomla! 1.5 Template Design Tessa Blakeley Silver, 2009-06-19 This book covers the how-tos of creating templates for Joomla! 1.5. There is also advice about what works and what to consider when working with your Joomla! 1.5 template. Because this title is about Joomla! 1.5 templates and not about CSS or semantic XHTML, an understanding of established and

current XHTML and CSS techniques for achieving compliant, semantic, and accessible designs is assumed. However, quality references and links are always given so the reader can learn more about any specific CSS or XHTML technique discussed if they are unfamiliar with it. This book is aimed at web designers who want to create their own unique templates for Joomla! 1.5. Readers should have a basic knowledge of Joomla! 1.5 (Building Websites with Joomla! 1.5 by Hagen Graf from Packt Publishing will help you with this) and also basic knowledge of table-less CSS and XHTML techniques, as well as using Dreamweaver or other text/code editors for coding purposes.
