Leather Crafts Valerie Schafer Franklin,Geoffrey Franklin,2016-06-14 A big part of the artisanal/DIY movement is about authenticity and quality, with a return to simplicity, real values, genuine materials, and careful craftsmanship. Leather is one of those authentic materials, and while it has always been used for handbags and gloves, it's also enjoying a resurgence in the field of crafts. Simple objects elegantly made of leather are featured everywhere on maker blogs, photo-sharing sites, tutorials, and craft marketplaces. Leather is in the real world, too, in heavily curated hipster boutiques and well-edited coffee shops that sell sundries. *Idiot's Guides®: Leather Crafts* offers 20 projects (illustrated with copious step-by-step photos), ranging from beginner to advanced, each one building on the skills that have been taught in prior projects. Unlike most existing books on leathercraft, which come with a heavy whiff of the '70s, this one has a sleek, modern aesthetic. The projects are functional, and the minimal, elegant embellishment and natural finishes will keep them timeless.

How To Make Holsters Al Stohlman ,1962 HOLSTERS have played, and are still playing, a very important part in the history of man. And, since the making and manufacture of the first hand guns, methods for concealing, easier handling and carrying of these weapons have been devised. Trial and error being the surest way of improvement, holster making has now advanced to fill almost every need and requirement of the pistol user. Today, with the hundreds of Makes, Models, and barrel lengths of hand guns, it would be virtually impossible to reproduce holster patterns for each and every one into book form. The Holster Patterns presented in this book are a cross-section of a few of the most popular Makes and Models of the guns in use today; with alternate designs and added barrel lengths as space permits. Most of the Carving Designs presented can be

altered for shorter, longer, or odd barrel lengths by adding or omitting a leaf, scroll, etc. The designs can also be used on similar holster patterns for other guns by “stretching” or “squeezing” the flowers, leaves, etc., to fit the confines of the border lines. With a little Imagination and Ingenuity, the Carving Designs in this book can be used on hundreds of holster patterns. Remember... the patterns shown will also fit many other similar makes and models of guns ... too numerous to mention. The purpose of this book is to assist and instruct the craftsman in various methods of Holster Construction and Holster Pattern Making. Each phase is shown with clearly defined step-by-step photos and drawings. It is hoped that this book will aid the Self Taught Student, Instructor, and Professional Craftsman alike to further their knowledge of “How To Make Holsters” for Profit, Personal Satisfaction and Fun! A “special” thanks to my wife, Terry, who has devoted countless hours and painstaking effort to produce all of the photographs appearing in this book. Many thanks to Ralph Tiner . . . Sporting Goods Center, Hemet, Calif. ... for his willing cooperation in supplying guns and information. Thanks to Lee Kelly, U. S. Forestry Service, and many other friends who have given unselfishly of their time and assistance. To the Leathercraftsman: Thanks for your patience in awaiting the first publication of “How To Make Holsters” .. Many Happy Hours! Sincerely, Al Stohlman

The Leatherworking Starter Handbook Stephen Fleming,2020-05-31 Suppose, you have to appear for an exam next week, who would be the go-to person for seeking help and guidance? Option 1: A Subject Matter Expert (SME) who studying/teaching the subject for several years and often assumes while explaining that the basics are covered or looks it from their frame of reference. Or Option 2: Someone who also started from scratch as you have and passed the exam just last week. He/She knows the exact process, challenges, doubts, and roadblocks you may be facing and can think from your perspective. If your option is 2, you are in the right place. I am a Technology Consultant by profession, and started my leathercraft journey in the year 2014. I started by going through multiple YouTube videos, courses, Facebook groups, and finally completed my first project after four months. I was confused and was lost in the magnitude of information available online. I firmly believe that while starting, you need exact, necessary, minimalistic information to start your first project, pardon: Complete your first project! So I started writing this book to provide a minimalistic approach to information required to start your first leather project. It covers: - History of leather - Basics Tools and their usage - Making Patterns - Cutting Patterns - Gluing - Beveling, Embossing, Stamping - Stitching basics - Coloring and Finishing - Tips, Techniques for the beginner -Leather Crafting, Physical Pain & Ergonomics * (New Chapter added!) - Appendix: List of online resources available for free patterns, tips, and techniques. I still remember the initial doubts I had and the tips which helped me. This book is for people who are in their first lap (0-3 years) of Leather crafting journey and want to have a holistic idea of processes, tools, and need help in their initial projects. I have included photographs of realistic projects of beginners explaining the process and standard operating procedure while starting. So, what are you waiting for? Get this updated

edition of the book with 22 chapters and start your Leather Crafting Journey Today!!
