John Ortberg

Overcoming Your Shadow Mission John Ortberg, 2008-09-02 The challenges, isolation, and relentless demands of leadership can inspire a variety of fears in the heart of a leader; among them fear of failure, fear of mutiny, fear of criticism, fear of disappointing people. However, the greatest fear leaders face is not something that might happen to them, but something that can happen in them—a degeneration of the heart that robs them of their calling and leaves a deep soul dissatisfaction in its place. John Ortberg describes this menacing fear in terms of mission and shadow mission. A mission is the highest purpose to which God calls us; a shadow mission is an authentic mission that has been derailed, often in imperceptible ways. Ortberg writes, “Part of what makes the shadow mission so tempting is that it’s usually so closely related to our gifts and passions. It’s not 180 degrees off track; it is just 10 degrees off track, but that 10 degrees is in the direction of hell.” Every leader has a mission—and a shadow mission. Even Jesus had to battle a shadow mission; it was to be a leader without suffering—to be the Messiah without the cross. Ortberg writes, “If we fail to embrace our true mission, we will live out our shadow mission. We will let our lives center around things that are unworthy, selfish and dark.” Using characters from the remarkable Old Testament story of Esther, Ortberg demonstrates the disastrous consequences of succumbing to shadow mission, and the stunning rewards of whole-hearted commitment to mission. With characteristic humor and insight, the author invites us to follow Esther’s example and courageously choose to embrace the mission God gives. Like Esther, we can lead without fear—even in threatening circumstances—because we know God is always at work in unseen, unknown and unlikely ways.

Burroughs Unbound S. E. Gontarski, 2021-11-18 In addition to contributing significantly to the growing field of Burroughs scholarship, *Burroughs Unbound* also directly engages with the growing fields of textual studies, archival research, and genetic criticism, asking crucial questions thereby about the nature of archives and their relationship to a writer's work. These questions about the archive concern not only the literary medium. In the 1960s and 1970s Burroughs collaborated with

filmmakers, sound technicians, and musicians, who helped re-contextualized his writings in other media. Burroughs Unbound examines these collaborations and explores how such multiple authorship complicates the authority of the archive as a final or complete repository of an author's work. It takes Burroughs seriously as a radical theorist and practitioner who critiqued drug laws, sexual practice, censorship, and what we today call a society of control. More broadly, his work continues to challenge our common assumptions about language, authorship, textual stability, and the archive in its broadest definition.

Beautiful Bottom, Beautiful Shame Kathryn Bond Stockton,2006-07-19 Shame, Kathryn Bond Stockton argues in *Beautiful Bottom, Beautiful Shame*, has often been a meeting place for the signs “black” and “queer” and for black and queer people—overlapping groups who have been publicly marked as degraded and debased. But when and why have certain forms of shame been embraced by blacks and queers? How does debasement foster attractions? How is it used for aesthetic delight? What does it offer for projects of sorrow and ways of creative historical knowing? How and why is it central to camp? Stockton engages the domains of African American studies, queer theory, psychoanalysis, film theory, photography, semiotics, and gender studies. She brings together thinkers rarely, if ever, read together in a single study—James Baldwin, Radclyffe Hall, Jean Genet, Toni Morrison, Robert Mapplethorpe, Eldridge Cleaver, Todd Haynes, Norman Mailer, Leslie Feinberg, David Fincher, and Quentin Tarantino—and reads them with and against major theorists, including Georges Bataille, Sigmund Freud, Eve Kosofsky Sedgwick, Jacques Lacan, Roland Barthes, and Leo Bersani. Stockton asserts that there is no clear, mirrored relation between the terms “black” and “queer”; rather, seemingly definitive associations attached to each are often taken up or crossed through by the other. Stockton explores dramatic switchpoints between these terms: the stigmatized “skin” of some queers’ clothes, the description of blacks as an “economic bottom,” the visual force of interracial homosexual rape, the complicated logic of so-called same-sex miscegenation, and the ways in which a famous depiction of slavery (namely, Morrison’s *Beloved*) seems bound up with depictions of AIDS. All of the thinkers Stockton considers scrutinize the social nature of shame as they examine the structures that make debasements possible, bearable, pleasurable, and creative, even in their darkness.

Cultural Barriers to the Success of Foreign Media Content Ulrike Rohn,2009 What media content attracts audiences across cultures and what does not? What does the cross-cultural audience demand depend on? The author takes a new approach to understanding cultural barriers to the success of foreign media content by analyzing the entry strategies of Time Warner, Disney, Viacom, News Corporation, and Bertelsmann with regard to China, India, and Japan in terms of their respective localization efforts. In-depth interviews with companies' representatives give an insight into how they view the

need for locally-produced media in these countries. The author develops and employs the Lacuna and Universal Model that provides a new theoretical classification of reasons for the cross-cultural success and failure of media content, as well as the Vertical Barrier Chain that locates cultural barriers in the wider context of legal, political, and economic barriers to successful entry into foreign media markets.

Little Lindy Is Kidnapped Thomas Doherty, 2020-11-03 The biggest crime story in American history began on the night of March 1, 1932, when the twenty-month-old son of Charles and Anne Lindbergh was snatched from his crib in Hopewell, New Jersey. The news shocked a nation enthralled with the aviator, the first person to fly solo nonstop across the Atlantic. American law enforcement marshalled all its resources to return “Little Lindy” to the arms of his parents—and perhaps even more energized were the legions of journalists catering to a public whose appetite for Lindbergh news was insatiable. In

Little Lindy Is Kidnapped, Thomas Doherty offers a lively and comprehensive cultural history of the media coverage of the abduction and its aftermath. Beginning with Lindbergh's ascent to fame and proceeding through the trial and execution of the accused kidnapper, Doherty traces how newspapers, radio, and newsreels reported on what was dubbed the "crime of the century." He casts the affair as a transformative moment for American journalism, analyzing how the case presented new challenges and opportunities for each branch of the media in the days before the rise of television. Coverage of the Lindbergh story, Doherty reveals, set the template for the way the media would treat breaking news ever after. An engrossing account of an endlessly fascinating case, Little Lindy Is Kidnapped sheds new light on an enduring quality of journalism ever since: the media's eye on a crucial part of the story—itsself.

Eero Saarinen Eero Saarinen,2006-01-01 From the swooping concrete vaults of the TWA Terminal at JFK Airport to the 630-foot-tall Gateway Arch in St. Louis, the iconic designs of Eero Saarinen (1910-1961) captured the aspirations and values of mid-20th-century America. Potent expressions of national power, these and other Saarinen-designed structures--including the GM Technical Center, Dulles International Airport, and John Deere headquarters--helped create the international image of the United States in the decades following World War II. *Eero Saarinen: Shaping the Future* offers a new and wide-ranging look at the entire scope of Saarinen's career. This is the first book on Saarinen to incorporate significant research and materials from the newly available archives of his office, and includes the most complete portfolio of Saarinen's projects to date--a chronological survey of more than 100 built and unbuilt works, previously unpublished photographs, plans, and working drawings. Lavishly illustrated, this major study shows how Saarinen gave his structures an expressive dimension and helped introduce modern architecture to the mainstream of American practice. In his search for a richer and more varied modern architecture, Saarinen became one of the most prolific and controversial practitioners of his time. Exhibition schedule: Helsinki Kunsthalle, Finland (October 6---December 6, 2006) Centre International pour la Ville, l'Architecture et le Paysage (CIVA), Brussels (Spring 2007) National Building Museum, Washington, D.C. Exclusive Rights Eugene Hertzberg,2011-11-30 Bill Gates said, Intellectual property has the shelf life of a banana. No one can deny the fact that intellectual property and its creation, protection, and management, has become a major area of concern for individuals and companies worldwide. Unprotected intellectual property has the shelf life of a banana, or perhaps even less. Intellectual property is inherently in the public domain, unless the government provides legal protection. Protected intellectual property is a valuable exclusive right. This book explores the exclusive rights associated with intellectual property by highlighting issues in copyright law and orphan works, music piracy and the Recording Industry Association of America, patent law and the development of the Segway, patent licensing and litigation between Xerox Corporation and Palm Incorporated, as well as metadata and the role of intellectual property lawyers.
