Letter Tracing Work Sheets Hiep Nguyen Publisher,2021-01-15 Letter Tracing Work sheets How will children learn to

write their names or letters if they don't have tracing activities? The answer is actually quite simple. Children need many opportunities throughout the day to write freely on topics of their choosing. They need access to writing materials and blank paper. The typical tracing activities involve broken line letters to help children make a correct letter. The problem with this is that children pay more attention to the broken lines than the actual letter and letter shape. In their attempts to connect the lines, they start at random places to connect the lines, go repeatedly over their marks to ensure the broken lines are completely covered, and often create letter shapes that do not have a written fluency to them. After years of observing children as they learn to write, I suggest that asking children to trace alphabet letters actually does more harm than good. ... These actions, if repeated enough times, will result in habits that later interfere with both legibility, muscle memory, and writing fluency
