*Uncovering the Logic of English: A Common-Sense Solution to America's Literacy Crisis* Denise Eide,2011-01-27 English is so illogical! It is generally believed that English is a language of exceptions. For many, learning to spell and read is frustrating. For some, it is impossible... especially for the 29% of Americans who are functionally illiterate. But what if the problem is not the language itself, but the rules we were taught? What if we could see the complexity of English as a powerful tool rather than a hindrance? --Denise Eide *Uncovering the Logic of English* challenges the notion that English is

illogical by systematically explaining English spelling and answering questions like Why is there a silent final E in have, large, and house? and Why is discussion spelled with -sion rather than -tion? With easy-to-read examples and anecdotes, this book describes: - the phonograms and spelling rules which explain 98% of English words - how English words are formed and how this knowledge can revolutionize vocabulary development - how understanding the reasons behind English spelling prevents students from needing to guess The author's inspiring commentary makes a compelling case that understanding the logic of English could transform literacy education and help solve America's literacy crisis. Thorough and filled with the latest linguistic and reading research, *Uncovering the Logic of English* demonstrates why this systematic approach should be as foundational to our education as  $1+1=2$ .

*Multimodal Composing* Lindsay A. Sabatino,Brian Fallon,2019-04-15 Multimodal Composing provides strategies for

writing center directors and consultants working with writers whose texts are visual, technological, creative, and performative—texts they may be unaccustomed to reading, producing, or tutoring. This book is a focused conversation on how rhetorical, design, and multimodal principles inform consultation strategies, especially when working with genres that are less familiar or traditional. *Multimodal Composing* explores the relationship between rhetorical choices, design thinking, accessibility, and technological awareness in the writing center. Each chapter deepens consultants' understanding of multimodal composing by introducing them to important features and practices in a variety of multimodal texts. The chapters' activities provide consultants with an experience that familiarizes them with design thinking and multimodal projects, and a companion website ([www.multimodalwritingcenter.org](http://www.multimodalwritingcenter.org)) offers access to additional resources that are difficult to reproduce in print (and includes updated links to resources and tools). Multimodal projects are becoming the norm across disciplines, and writers expect consultants to have a working knowledge of how to answer their questions. *Multimodal Composing* introduces consultants to key elements in design, technology, audio, and visual media and explains how these elements relate to the rhetorical and expressive nature of written, visual, and spoken communication. Peer, graduate student, professional tutors and writing center directors will benefit from the activities and strategies presented in this guide. Contributors: Patrick Anderson, Shawn Apostel, Jarrod Barben, Brandy Ball Blake, Sarah Blazer, Brenta Blevins, Russell Carpenter, Florence Davies, Kate Flom Derrick, Lauri Dietz, Clint Gardner, Karen J. Head, Alyse Knorr, Jarret Krone, Sohui Lee, Joe McCormick, Courtnie Morin, Alice Johnston Myatt, Molly Schoen, James C. W. Truman
