**Ditch That Textbook** Matt Miller,2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

It provides a solid model for predicting and managing solution scope across a project life cycle where the decisions and actions of every team member contribute to that evolutionary process. In addition, it identifies the impacts that key tasks and activities will have on scope and how each can be managed effectively to prevent unnecessary scope creep and reduce run-away projects.
