Bracketology Joe Lunardi, David Smale, Mark Few, 2021-03-02 Lunardi delves into the early days of Bracketology, details its growth, and dispels the myths of the process The NCAA Tournament has become one of the most popular sports events in the country, consuming fans for weeks with the run to the Final Four and ultimately the crowning of the champion of college hoops. Each March, millions of Americans fill out their bracket in the hopes of correctly predicting the future. Yet, there is no true Madness without the oft-debated question about what teams should be seeded where—from the Power-5 Blue Blood with some early season stumbles on their resume to the mid-major that rampaged through their less competitive conference season—and the inventor of Bracketology himself, Joe Lunardi, now reveals the mystery and science behind the legend. While going in depth on his ever-evolving predictive formula, Lunardi compares great teams from different eras with intriguing results, talks to the biggest names in college basketball about their perception of Bracketology (both good and bad), and looks ahead to the future of the sport and how Bracketology will help shape the conversation. This fascinating book is a must-read for college hoops fans and anyone who has aspired to win their yearly office pool.

Mawson's Mission Lora Marlene Mawson,2020-07-28 Before 1968, women's athletics in higher education meant playdays and sports days. That spring, when the Division of Girls and Women in Sports announced that national collegiate sports championships for women would begin in 1969, Marlene Mawson, a new hire on the physical education faculty at the University of Kansas, was charged with establishing a women's athletics program. "I was on my own," Mawson recalls, "because there was no precedent for creating a women's athletics program with a meager budget." That meant planning sports competition schedules, staffing coaches, organizing policies and procedures for coaches and athletes, coordinating practice schedules, budgeting, and directing the new KU intercollegiate sports program for women without intervention or guidance. In their first decade, KU women's teams competed in national championships in volleyball, basketball, softball, and gymnastics. In this book, Mawson, who was inducted into the KU Athletics Hall of Fame in 2009, describes her remarkable career, from her early years in Missouri to her retirement. With behind-the-scenes views and insights that reflect a lifetime's

experience, her memoir weaves together the history of the development of women's athletics at the University of Kansas and the story of the birth of women's intercollegiate athletics across the United States—from the Olympic Development Committee to Title IX to the NCAA. It is an engaging account of groundbreaking personal achievement by a woman in the world of college sports, and a stirring record of an extraordinary but little-documented decade in the evolution of women's athletics.

The Big Dance Barry Wilner, Ken Rappoport, 2012 Covered by four networks, allowing every game to be televised, March Madness has become an American phenomenon. Saving Savannah Tonya Bolden, 2020-01-14 From acclaimed author Tonya Bolden comes the story of a teen girl becoming a woman on her own terms against the backdrop of widespread social change in the early 1900s. Savannah Riddle is lucky. As a daughter of an upper class African American family in Washington D.C., she attends one of the most rigorous public schools in the nation--black or white--and has her pick among the young men in her set. But lately the structure of her society--the fancy parties, the Sunday teas, the pretentious men, and shallow young women--has started to suffocate her. Then Savannah meets Lloyd, a young West Indian man from the working class who opens Savannah's eyes to how the other half lives. Inspired to fight for change, Savannah starts attending suffragist lectures and socialist meetings, finding herself drawn more and more to Lloyd's world. Set against the backdrop of the press for women's rights, the Red Summer, and anarchist bombings, *Saving Savannah* is the story of a girl and the risks she must take to be the change in a world on the brink of dramatic transformation.

Yes, It's Hot in Here Aj Mass, 2014-04-15 *Yes, It's Hot in Here* explores the entertaining history of the mascot from its jester roots in Renaissance society to the slapstick pantomime of the Clown Prince of Baseball, Max Patkin, all the way up to the mascots of the slam-dunk, rock-and-roll, Jumbotron culture of today. Along the way, author AJ Mass of ESPN.com (a former Mr. Met himself) talks to the pioneers among modern-day mascots like Dave Raymond (Phillie Phanatic), Dan Meers (K. C. Wolf), and Glenn Street (Harvey the Hound) and finds out what it is about being a mascot that simply won't leave the performer. Mass examines what motivates high school and college students to compete for the chance to wear a sweaty animal suit and possibly face the ridicule of their peers in the process, as well as women who have proudly served as mascots for teams in both the pro and amateur ranks. In the book's final chapter, Mass climbs inside a mascot costume one more time to describe what it feels like and, perhaps, rediscover a bit of magic.

Whither College Sports Andrew Zimbalist, 2021-11-12 Intercollegiate athletics is under assault from all sides. Its economic model is yielding increasing and unsustainable deficits and widening inequality. Coaches and athletic directors are

the highest paid employees at FBS universities (NCAA Division I Football Bowl Subdivision) by factors of five to ten, or more. Athletes are being cheated on their promised education, do not receive adequate medical care, and are not allowed to receive cash income. Substantial change, either toward reasserting the intended primacy of education for intercollegiate athletes or a further surrender to commercialism, is coming. This book lays out the starkly different paths that college sports reform can follow and what the ramifications will be on the athletes and on the institutions in which they are enrolled.

Against White Feminism: Notes on Disruption Rafia Zakaria,2021-08-17 A radically inclusive, intersectional, and transnational approach to the fight for women's rights. Upper-middle-class white women have long been heralded as "experts" on feminism. They have presided over multinational feminist organizations and written much of what we consider the feminist canon, espousing sexual liberation and satisfaction, LGBTQ inclusion, and racial solidarity, all while branding the language of the movement itself in whiteness and speaking over Black and Brown women in an effort to uphold privilege and

perceived cultural superiority. An American Muslim woman, attorney, and political philosopher, Rafia Zakaria champions a reconstruction of feminism in *Against White Feminism*, centering women of color in this transformative overview and counter-manifesto to white feminism's global, long-standing affinity with colonial, patriarchal, and white supremacist ideals. Covering such ground as the legacy of the British feminist imperialist savior complex and "the colonial thesis that all reform comes from the West" to the condescension of the white feminist-led "aid industrial complex" and the conflation of sexual liberation as the "sum total of empowerment," Zakaria follows in the tradition of intersectional feminist forebears Kimberlé Crenshaw, Adrienne Rich, and Audre Lorde. Zakaria ultimately refutes and reimagines the apolitical aspirations of white feminist empowerment in this staggering, radical critique, with Black and Brown feminist thought at the forefront.
